

Data Sheet

# Flex 3MP & 8MP Mini-Domes

#### Key Features

- IK10-rated vandal resistance and IP67-rated for protection against dust and water damage
- IR illumination for clear images in low light conditions on outdoor model
- IntelliZip powerful video compression for bandwidth management
- TrickleStor provides edgebased failover redundancy
- P-iris for image clarity in changing light conditions
- Motion detection for instant intruder alerts

## High-Quality, Versatile Video Capabilities

The powerful Illustra Flex Mini-Domes are designed to offer a high-image quality, feature rich surveillance option for a wide range of applications. The increased amount of pixels per foot on the 8MP model improves image detail in wide areas such as loading docks and airport terminals. Also, the Outdoor Mini-Dome models feature built-in IR illuminators to produce clear images at an effective distance in a variety of low light conditions. Deployments that strive for a combination of high-resolution and high-performance at a competitive price point, all while simplifying installation and configuration stand to benefit the most from the these Illustra Mini-Domes.

## Powerful Technology to Increase Confidence and Savings

The Flex product family cameras feature built-in technology that ensure efficient recording and smart bandwidth management. When paired with a VideoEdge or exacqVision NVR, edge-based failover redundancy allows video recording to continue on the camera when an outage occurs, then when connection is restored transfers video back to the media database

for seamless viewing later. Illustra® IntelliZip continuously monitors and optimizes system streaming parameters to match the level of activity within the camera's field of view.

#### Safeguard Against Cyber Attacks Across Devices

Illustra Flex Cameras have been designed to be resilient against cyber-threats. Our products are gated, analyzed, tested and required to meet or exceed the rigorous standards of the Johnson Controls Cyber Solutions Product Security Program for every consecutive release. This holistic approach is aimed at providing peace of mind to our customers. Our security mindset begins at initial design concept and is supported through deployment, including a rapid incident response to meet the comprehensive and evolving cybersecurity environments.

# **Specifications**

ADLOMARM	Gooseneck Arm (White)	
ADCDMCRNRO	Outside Corner Mount Adaptor (White)	
ADCDMPOLE	Pole Mount Adaptor (White)	

### **About Johnson Controls**

Johnson Controls is a global diversified technology and multi-industrial leader serving a wide range of customers in more than 150 countries. Our 120,000 employees create intelligent buildings, efficient energy solutions, integrated infrastructure and next generation transportation systems that work seamlessly together to deliver on the promise of smart cities and communities. Our commitment to sustainability dates back to our roots in 1885, with the invention of the first electric room thermostat.
